OBJECTIVE

Dedicated Frontend Developer with hands-on experience in **React.js, JavaScript, HTML, and CSS**. Skilled in building responsive and user-friendly interfaces, optimizing frontend performance, and ensuring seamless user experiences across devices. Seeking a frontend development role where I can contribute to creating engaging web applications and grow within a collaborative and innovative team.

EDUCATION

M.Sc. Computer Science:- PVG College of Science, Pune — 2025 | CGPA: 9.0

B.Sc. Computer Science:- PVG College of Science, Pune — 2023 | CGPA: 7.89

SKILLS

Core Technologies:- JavaScript, HTML5, CSS3, TypeScript

Frameworks and Libraries :- React.js, Tailwind CSS, Node.js, Express.js

Database:- MongoDB, Mongoose, Mysql

EXPERIENCE

PJSoftTech Pvt Ltd

Frontend Intern

April 2025 - Present

Pune

- Improved backend data loading efficiency by 35% through optimized CSV parsing with Multer and Mongoose.
- Enhanced dashboard UI/UX, reducing user navigation time by 20% and streamlining task flows.
- Resolved 25+ frontend issues by implementing effective state and prop management in React.
- Implemented secure user authentication using JWT and Bcrypt, supporting 100+ daily logins.

PROJECTS

Income & Expense Management System

Engineered a modular and responsive frontend architecture using React and Material UI to streamline income and expense tracking workflows. Integrated dynamic tables, real-time transaction filtering, and intuitive dashboards while ensuring seamless synchronization with backend APIs for financial data management.

Shipment

Tracking

System

Designed and implemented a scalable frontend interface using React and Material UI to manage end-to-end shipment tracking operations. Enabled real-time parcel status updates, secure role-based views, and efficient interaction with backend services, ensuring consistent data flow and user experience across logistics modules.

EXTRA-CURRICULAR ACTIVITIES

- I have certificate of Devtown for learning HTML and CSS. PROJECTS.
